ROADMAP

Our Mission

“

*YuGiOh has one simple goal.
Bring you back to the childhood of card games*

Inspired by the popular anime film Yu-gi-oh, YuGiOh creates a platform, a playground for the community where you can build decks and combine them to create.

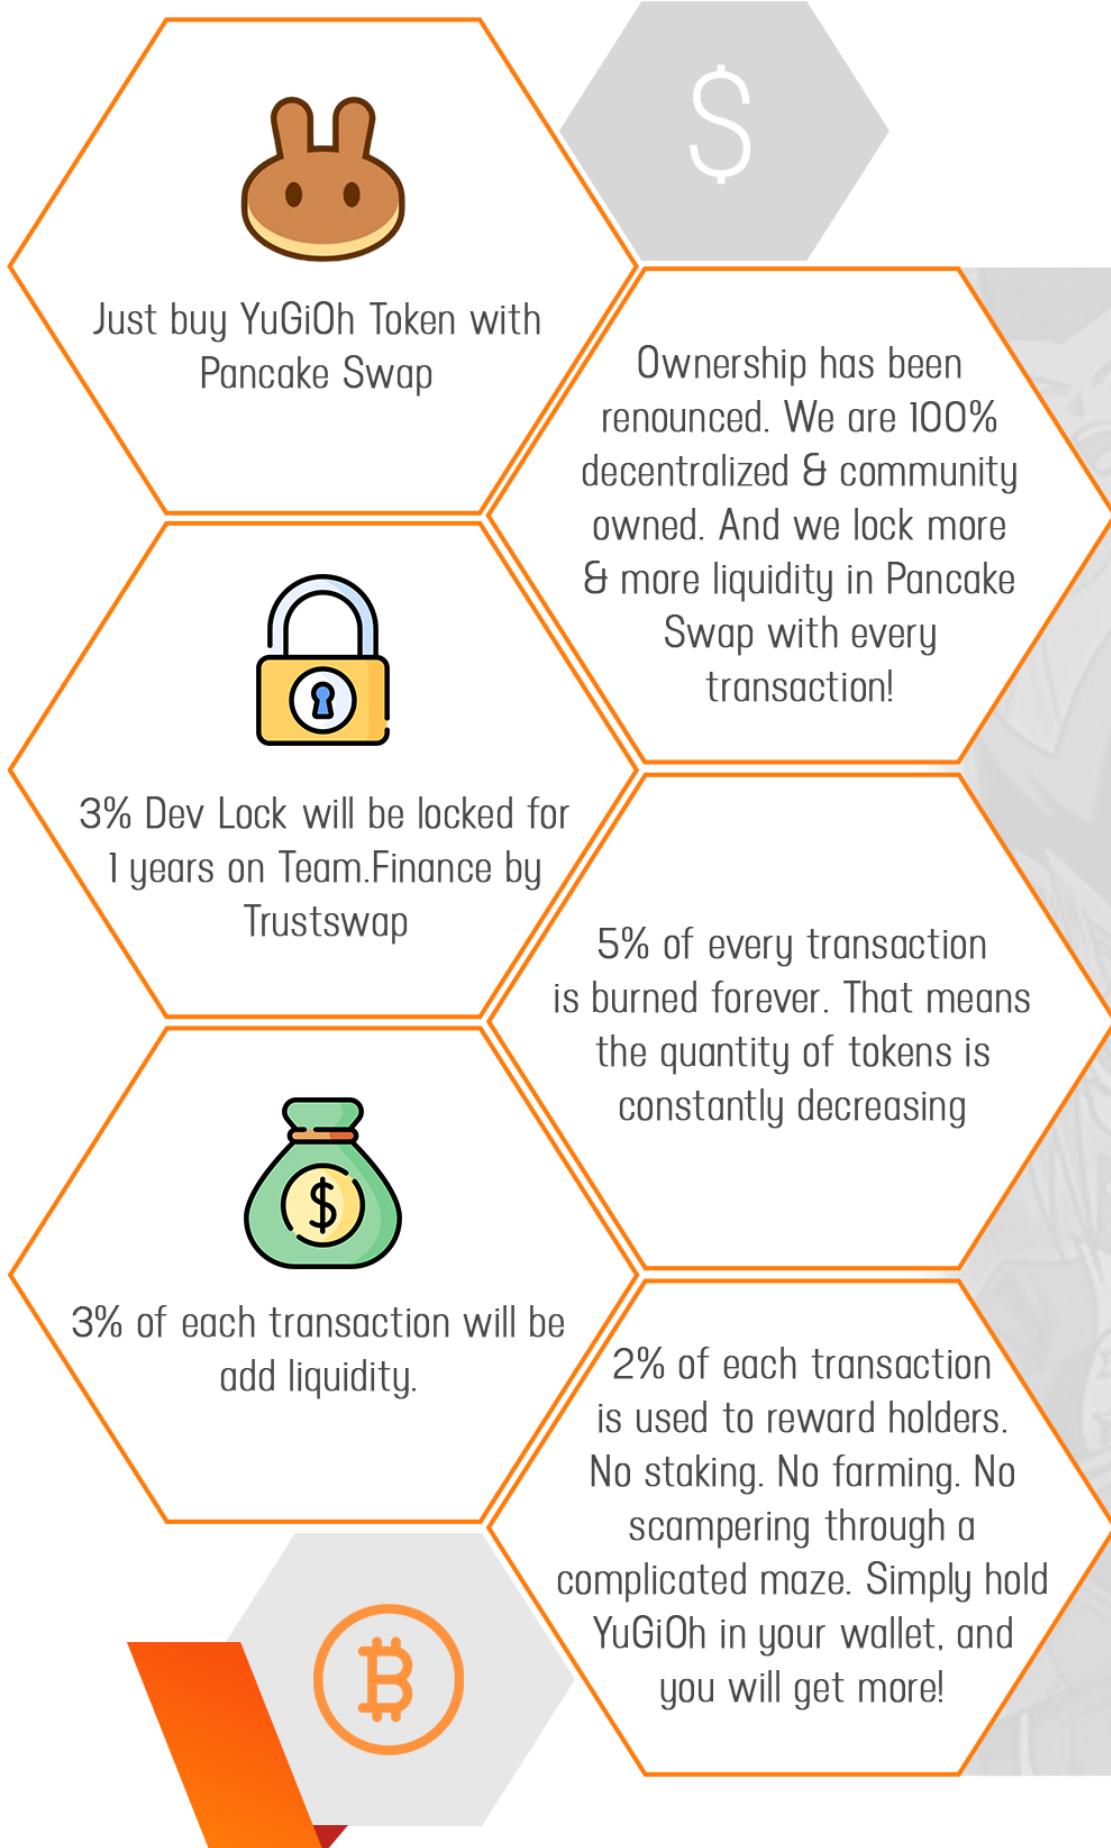

Unleash new cards that are unique and have hidden powers. Besides, users can exchange them with the world community through YuGiOh Protocol.

What is YuGiOh Protocol

YuGiOh Protocol is a deflationary token based on the Binance Smart Chain. It is also a token driven solely by its community. The creator has renounced the contract and all its liquidity. This makes the fate of the token in the exclusive hands of the community and make trust in our team.

Our plans for the short term is to expand first, dedicating ourselves to the listings on various exchanges and then subsequently developing a dedicated AMM [swap] and a dedicated NFT system for our wonderful Yugioh Cards! Charity donations are also in the works. As we are a brandnew community, many more angles are being discussed, and the community will be included in all decisions. We will explore the Yugioh Cards in the future together with all of you!

Our Benefit

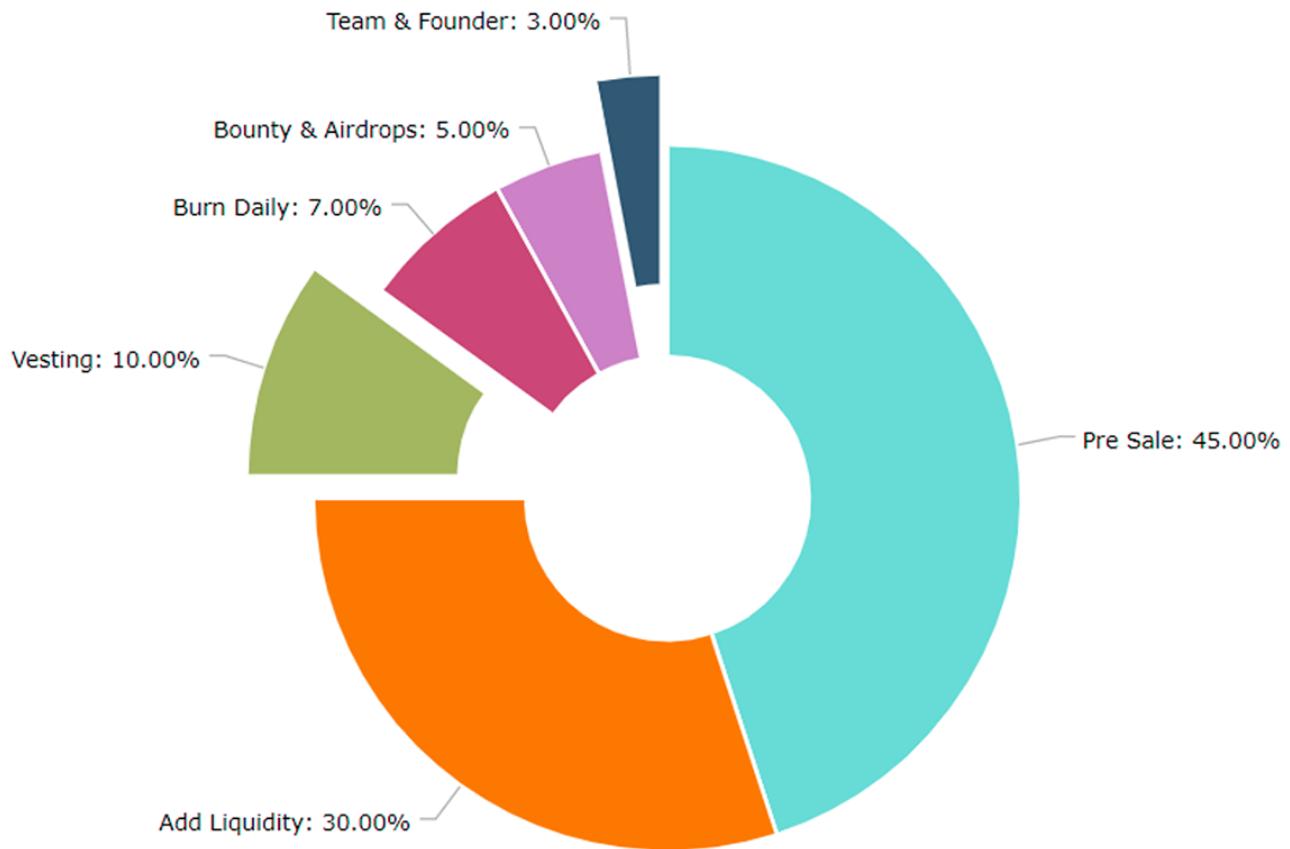

Tokennomics

Token type: Deflationary

Token name: YuGiOh Protocol

Token symbol: YGO

TOTAL SUPPLY: 1,000,000,000,000,000

Vesting: 10% will be released when \$YGO reach following wallet holders

- 1000 wallet holders
- 2000 wallet holders
- 3000 wallet holders
- 5000 wallet holders

RoadMap

PHARSE 1

Research & Core Development
Ownership renounced – YuGiOh is completely decentralized
Public Social: Twitter, Telegram, Website launch

PHARSE 2

Start Public Token Sale Round to community on DxSale
Audit by TechRate
Listing on PancakeSwap

PHARSE 3

Listing on Coingecko
Listing on CoinMarketCap
Listing on Uniswap

PHARSE 4

Community growth
Schedule regular charity fundraisers
Exchange Listing

IN THE FUTURE

NFTs store launch
Community expansion
